Quick Release Device

WELLGO QRD is available for many of our new and existing pedals in every category.

No tools are required and pedals can be removed with a flick of a finger.

The QRD design offers portability and additional security for bicycles when they are parked.

The ability to quickly remove the pedals without any tools save time when storing your bike in limited spaces (e.g. car, closet, box).

Built in Reflector

NEW

To make everyone's life easier, Wellgo developed the new Snap on spindle system for the youth pedal. Now the spindle can be directly assembled onto the bike before shipment. Once the bike hits the store, users can simply take the body out and snap it on to the spindle. This would help prevent identifying the threads and minimize the trouble of assembling pedals.

How to use 98A Reflector platform

1

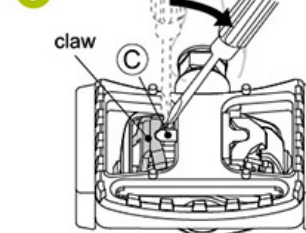

Use a 3mm hexagonal wrench to adjust the spring tension to the lowest tension.

2

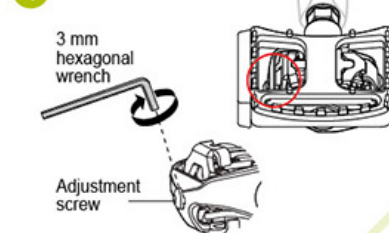

First, insert (A) point of the reflector platform into the front side of the pedal claw.

3

Use a straight (flat) screwdriver to push the back claw backwards for easier access to the reflector platform.

4

Once the reflector platforms are installed to the pedal, please adjust the spring tension to fit your need.
